ZAPMOUNT

INDOOR/OUTDOOR CABINET

The ZapMount is the perfect solution for workspaces and public spaces. It can be wall or post mounted and includes a CCTV camera for security.

24/7 MONITORING

ZapMount is remotely monitored and supervised by our control room 24/7/365 for AED health, emergency use, location and presence. Our control room provides 24/7 supervision and emergency response.

911 CONNECTIVITY

AED SmartCase can be programmed to send an SMS when it is removed from the cabinet.

SURVEILLANCE

One camera records video to deter vandalism and protect the unit.

GPS LOCATOR

A GPS unit in the AED SmartCase is activated, and in real time, provides accurate pinpointed location of the patient to first responders saving time and saving lives.

SHOCTOBER AED AWARENESS

An annual AED awareness program building everyone's confidence in responding to a cardiac arrest.
